

Dynamics NAV – Mobile Manufacturing

Mobile Manufacturing for Microsoft Dynamics NAV is a solution developed to enable manufacturing execution and data capturing using tables, scanners and smart phones.

The solution combines selected functionality from a Shop Floor Data Capture (SFDC) system and a Manufacturing Execution System (MES).

Runs on the native Dynamics NAV universal app that's available for the iOS and Android operating systems and provides a modern real time, touchscreen interface. Easy and flexible for Dynamics NAV partners and customer to tailor to specific company needs.

Production Order No.	Routing Progress	Operation Description	Operation Status	Starting Date	Ending Date	Item No.	Description	Prod. Order Quantity
101008	...	Wheel assembly	...	4/8/2015	4/11/2019	1000	Bicycle	100 PCS
101008	...	Chain assembly	...	4/11/2015	4/17/2019	1000	Bicycle	100 PCS
101011	...	Rim assembly	...	4/18/2015	4/18/2019	1100	Front Wheel	30 PCS

Key Features
